President Feldman administered the oath of office to Mr. Gladden.

Mr. Merlino offered the following resolution which was read and adopted:

*Be It Resolved by the Senate (the General Assembly concurring):*

That at 2:00 p.m. both Houses of the Legislature meet in Joint Session for the purpose of receiving the Annual Message of His Excellency Brendan T. Byrne, Governor of the State of New Jersey, which will be delivered in person.

The Senate recessed for a Joint Session to hear Governor Byrne’s Annual Message.

**Third Annual Message**

*January 11, 1977.*

**Introduction**

In 1973, New Jersey faced several critical problems, including: wildly escalating costs of government and an inequitable tax structure bearing those costs; rising unemployment and signs of long-term economic trouble; a criminal justice system that had lost the public’s trust; and a backlog of public issues on which the ordinary citizen was unable to prevail against well-entrenched, vested interests. Perhaps the most basic problem for New Jersey in 1973 was a government in which the public was excluded from observing, and participating in, many of the major decisions affecting their daily lives. That way of doing the people’s business lacked courage and integrity. We could not be proud of that kind of government.
This Legislature and this Administration were elected to deal with those problems. We have not solved every one. We have made some mistakes. But, we have compiled a remarkable record of achievements and we have created a government in which our citizens can take pride—no resident of our great State need hang his head when he says he comes from New Jersey.

While we can and should be pleased with what we have done, let us resolve to confront with intelligence and courage those tasks not yet accomplished. The conventional wisdom has it that in a state election year, nothing of significance can be accomplished in the Legislature. Let us disprove that conventional wisdom—let us once again attack the hard problems and face the difficult solutions.

I. Capping Government Costs and Reforming the Tax System

When this Administration took office, New Jersey was faced with runaway state and local government costs borne by a regressive, inequitable tax system, including a crushing property tax, despite the efforts of two previous Governors to correct that inequity.

The decade ending in 1974 saw state budget increases averaging 16.8 percent per year. The people saw that the costs of doing public business were out of control. The public also perceived correctly that the basic state and local tax structure—in particular, the reliance on property taxes for education—had to be changed.

How have we dealt with this deepseated problem? What more should we do in 1977?

The Executive Branch instituted a tough zero-base budgeting system, while the Legislature took its own steps—through a hard-working Joint Appropriations Committee—to scrutinize state expenditures as never before. Together, we have placed an effective cap on the costs of government.

In the past two years, the appropriation to support the state budget has increased by only 2.4 percent. This is a remarkable achievement in the face of rampant inflation and of increased costs in mandated programs: a 43 percent increase in Medicaid; a 13 percent increase in income maintenance and a 31 percent increase in pension and Social
Security costs. The alarming escalation of the previous decade has been halted, though not without real pain and sacrifice.

Last year, this Legislature took an extraordinary step toward placing limits on government spending at all levels. New Jersey is the only State in the nation which by law has imposed limitations on the amounts which government at all levels may increase their spending.

State, county and local governments must make hard choices about how they can cut spending to fit within the limitations of the law. I am proud of our record in keeping spending in line even without statutory restrictions. I accept the challenge imposed by the new cap laws.

Unlike our neighbors across the Hudson, we have maintained, even strengthened, the position of public bonds issued in New Jersey. Under our effective Qualified Bond Acts, Newark, which could not sell bonds at any price in December 1975, can now market sizeable bond issues at respectable rates. Many other New Jersey municipalities and school districts have also been able to market bonds at favorable rates.

By allowing appropriated state-aid funds to serve as security for debt service payments, the State is providing financial stability and substantial savings for local governments—especially our older municipalities—without placing any additional burden on the State budget.

We have acted to insure that State funds are properly and productively spent, no matter where they are spent. I sent a special agent to assist in overhauling the financial affairs of the Newark school system and draft a set of permanent reforms, which this Legislature speedily enacted into law. These reforms are saving an estimated $865,000 a year.

On a broader scale, we have enacted and implemented a program of statewide student performance standards in the basic skills to insure that the kids educated in our public schools are equipped with the basic tools to which they are entitled.

Most important, we have reformed an inequitable and regressive tax system. The struggle to provide property tax relief for New Jersey homeowners was long and difficult. I am proud to have made that fight. I am proud that the
Legislature reached agreement after a tumultuous constitutional conflict involving all three branches of government.

What will Tax Reform mean to the people of New Jersey? For the State’s 1.4 million homeowning families, it will mean Homestead Rebate checks averaging $190 per year, with senior citizens and disabled persons receiving rebates averaging $240. For many homeowners, these rebates will exceed the amount of their income tax payment.

Tenants will share in the concrete benefits of Tax Reform: they are afforded a $65 tax credit if they are under 65 years of age and a $100 credit if they are senior citizens or disabled persons. New Jersey commuters who earn all or part of their income in other states will share in the full tax relief benefits of the program without paying a penny more in income taxes. In some cases, they will pay smaller income taxes.

But rebates and credits are only one aspect of Tax Reform. Most of the $374 million allocated to additional state school aid will end up in taxpayers’ pockets. The program places caps on school spending and requires that unbudgeted State aid be passed directly through to the taxpayer.

Another $94 million in property tax relief is apportioned among New Jersey’s 567 municipalities as revenue sharing. This $7.00 for every man, woman and child will be reflected in 1977 property tax bills.

The result will be an end to more than a decade of intolerable escalation in local property taxes. No long will our children just establishing their own homes and our senior citizens living on fixed retirement incomes be forced to move away from the communities where they have roots.

I know that our reform program has its critics. I suspect this criticism will grow more vigorous and emotional as the November election approaches. I stand ready to meet that criticism with an open challenge: Show us the better way!

It is not enough to oppose the income tax without saying where you propose to fund the $750 million in property tax relief yielded by the income tax.

It is not enough to say you are for tax reform, but not this tax reform. It is not enough to hint of a secret plan to be unveiled later or to promise that some fiscal magic will
reveal itself in the months ahead. There is a workable tax reform program in place and the people deserve full and open discussion of precisely how the critics propose to improve upon it.

If there is a better way, let us test it in the crucible of public debate. But let us beware any proposal that would merely repeal the income tax and heap a billion dollars in local school and government costs back on the local property tax—no matter how it may be gift wrapped.

It is far too late in the game for such simplistic solutions to be taken seriously—and the people know it.

**Solutions for Action in 1977**

What more should be done in 1977 to deal with the problem of government costs?

The zero-base budgeting process that New Jersey has implemented so effectively provides a basic tool for capping the costs of State government. However, we must continually reexamine basic functions of government and assess whether they are necessary or need to be reformed. I will work with the Legislature to design a Sunset process which requires a continuing reexamination of these functions, without tying government up in a new kind of costly red tape.

With fewer State employees per capita than 48 other states, with our budgets tightly capped, with a highly effective Cabinet team, the productivity of our State government is very high. But I am determined to improve on that record.

I propose to create a major new unit within the Treasury Department to carry out four major objectives.

It will undertake intense program and policy analysis of selected major programs designed to establish, not only how well they accomplish what they set out to do, but whether there might be a more effective way of accomplishing the same task. It would assess the effectiveness and efficiency of the people who make our programs work. And it would conduct a continuing review of the flow of federal funds into New Jersey as documentation for our efforts to gain a fair share of federal funding for New Jersey and the other industrial states of the Northeast.

In my First Annual Message, I called for the creation of a Task Force on the Business Efficiency of the Public Schools.
That Task Force is preparing recommendations on expansion of regionalized school services (short of full regionalization), streamlining of business procedures, and smoothing operational relationships between school administrators and boards of education. I urge that these proposals be given special scrutiny.

I will continue to press for the establishment of minimum competency standards for high school graduation. Such standards should be set this year and put into force in five years to allow high schools and students sufficient time to meet those standards.

The New Jersey Commission on Financing Post-Secondary Education is completing a two-and-a-half-year reexamination of college and university financing in New Jersey and will offer sweeping recommendations affecting every aspect of higher education. These recommendations will be controversial. They deserve broad public discussion and debate in the months ahead.

I urge immediate consideration of the plan to consolidate the five current student aid programs into one comprehensive Tuition Assistance Plan. Swift legislative action on this proposal will bring increased efficiency and productivity to the student aid system.

In 1976, the Division of Local Government Services extended its financial audit powers to monitor and improve the financial management practices of local and regional utility authorities. This program will be further expanded in the year ahead.

II. Creating Job Opportunities and Improving the Economy

When this Administration took office, New Jersey’s economy was in critical condition. In April 1973, the Economic Policy Council reported that New Jersey lagged behind the rest of the nation in recovering from the recession and that this lag reflected major problems in the State’s economic structure, particularly its manufacturing sector. By the start of 1974, the O.P.E.C. oil embargo was simultaneously driving inflation higher and triggering another recession that would soon put many more New Jerseyans out of work.
Fast emergency measures during the first months of this Administration helped New Jersey through the immediate gasoline crisis. However, the State was left with a badly damaged economic structure which would clearly require years of hard work to repair.

We were elected in 1974 to find solutions to this tough problem. What have we achieved so far? What remains to be done?

In three years we have put people back to work on vital public projects. We have attracted major new private enterprises, and we have confronted the energy crisis head on. We also have increased our share of federal funding and international investment in jobs for New Jerseyans. Let's look at the record.

Early in 1974, I proposed and you quickly adopted legislation establishing an Economic Development Authority to issue tax free industrial revenue financing bonds. I am proud of this agency's remarkable success. Since August 1974, the NJEDA has approved financing for 241 projects, generating capital investment of $463 million and creating nearly 18,000 permanent jobs. An additional 5,000 construction workers have been employed in erecting new plants.

We have reorganized the Division of Economic Development in the Department of Labor and Industry to provide a wide range of services to business firms. We have created more than 25,000 new jobs and saved another 17,000 jobs by retaining firms that were considering moving from the State.

The Hackensack Meadowlands Development Commission is well along on exciting plans for a new industrial and office park complex which will generate up to $50-$100 million in capital investment. This will mean thousands of new jobs for North Jersey.

An Office of State Economic Planning, supported by federal funds, is developing a comprehensive planning process and coordinating economic policies designed to renew the economy.

The new Capital Budget and Planning Commission, during the first year of operation, was instrumental in developing voter approval for $210 million in State bonds for mortgage and housing assistance, environmental facilities, State institutions, and badly needed correctional facilities.
These bonds will provide for essential capital construction and renovations and will create employment for more than 22,000 people.

In 1974, I promised that every dollar available for capital improvements would be spent expeditiously to reduce unemployment, especially in the hard hit construction trades. Despite the State's unprecedented fiscal crises, New Jersey has secured, and in most cases expended, more than $2.8 billion State, federal and private dollars for capital improvements since January 1974. The list includes:

- The Meadowlands Sports Complex, completed within budget and on time.
- More than $1 billion in wastewater treatment facilities, constructed largely with federal funds, and improvements to parks, recreational facilities and water supply systems.
- Some $400 million, again largely from federal sources, to improve the Erie Lackawanna Railway, the New York and Long Branch Railroad and PATH.
- $66 million in low-cost financing for low income and senior citizen housing, a program blocked by red tape until we cut the knot.
- More than $150 million in low interest financing for hospital improvements and expansion and improvements at our State hospitals and institutions.
- $100 million in federal funds for various State and local public works.

These projects have created more than 100,000 temporary and permanent jobs for New Jerseyans and represent a substantial investment in our economic and social future.

In April 1975, I established a special Economic Recovery Commission to propose action to stimulate New Jersey's economy. After exhaustive study, the Commission presented 53 specific proposals. Most of these recommendations have been implemented or are nearing completion.

We have stimulated housing development and rehabilitation, especially in our cities.

To preserve existing housing, we have enacted a strong anti-redlining law and empowered the Mortgage Finance
Agency to purchase home improvement loans, increasing the availability and lowering the costs of these loans.

In addition, our State Housing Finance Agency has remained solvent and productive during a period when finance agencies throughout the country were shaken by the New York crisis. In fact, the New Jersey Housing Finance Agency has led the nation in using the new federal Title 8 subsidy program to construct new housing and rehabilitate existing housing.

We have enacted a Uniform Construction Code, a new Municipal Land Use Law and a new Soil Erosion and Compensation Law. The Department of Community Affairs is working closely with local governments in implementing these reforms which cut government red tape, reduce the cost of new housing, and establish uniform standards throughout the State.

Innovative housing grants to municipalities under the Neighborhood Preservation Program are helping to stabilize and revitalize urban neighborhoods. I have directed the Division of State and Regional Planning to prepare fair share housing goals to assure that they are consistent with our programs to revitalize the cities and promote comprehensive statewide planning.

For several years, I have heard businessmen, developers and private citizens alike, complain that bureaucratic red tape has put a stranglehold on economic development activities in New Jersey. In an effort to attack this problem, we have created an effective Office of Business Advocacy and have imposed a tough 90-day requirement on environmental permit processes.

To spur increased urban economic development and revitalize our cities, we have empowered municipalities to grant property tax abatements for commercial and industrial development located in areas in need of redevelopment.

We learned the hard way during the winter of 1973-74 that the era of cheap and plentiful energy has ended. This Administration has developed an admirable record in managing our dwindling resources and protecting the interests of our consumers.

We have worked vigorously to guard New Jersey's interests in the energy market. I resisted the ill-considered
plan to make New Jersey the nation's single largest depository of liquified natural gas and worked instead to force the federal government to adopt tough national safety standards for this dangerous substance.

I fought a long and sometimes lonely battle to insure that any drilling done off our coast is controlled by the most demanding possible safety standards. The terrible oil spills of the last month point up the risks of making headlong decisions regarding offshore resources.

In order to further diminish the chances for such spills, we are making sure that oil drilled off our shore will come to us by pipeline, not foreign tanker. Carefully tapped, the offshore oil and gas can mean jobs and economic development for New Jersey; improperly exploited, they can spell disaster.

During that gasoline emergency, we created a first-rate Energy Office. It handled the emergency with decisiveness and imagination, serving as a model for several other states. The Office continues to monitor the energy situation, research and planning.

We have developed a strong proposal for the federal government to establish the nation's Solar Energy Research Institute in New Jersey. Our chances of bringing this important new research and development function to the State appear good.

Our energy future should be bright if we are prudent in using our existing resources and those off our coast, through research and development efforts, and through such imaginative new mechanisms as the Regional Energy and Development Corporation, which I presented to President-elect Carter. In the near term, however, we must guard our interests as we "manage scarcity."

We have increased New Jersey's share of federal spending, holding down the burden on our own taxpayers and insuring that a greater share of the stimulative effect of government spending reached our economy. Total federal outlays coming into New Jersey increased by $2.2 billion in the past year alone. This was a result of our unified Congressional Delegation and our first-class Washington Office, backed up by intensified federal relations efforts by every cabinet department.
In the past decade, international investment in New Jersey has expanded by more than 200 percent. The greatest part of that expansion has occurred in the past two years, making New Jersey one of the leading foreign investment states in the nation. More than 320 international companies have installations in New Jersey employing thousands of our citizens.

Last year, our State government assisted New Jersey businesses in selling products and services in Sweden, Belgium, Rumania and Saudi Arabia. State officials, working with representatives of New Jersey business and labor, have encouraged companies from Canada, Germany, Great Britain and France to locate manufacturing and service facilities in the State.

Our efforts to stimulate foreign investment in New Jersey bore solid results last week when Co-Steel International of Canada announced plans to construct a $100 million facility in Perth Amboy, culminating two years of work by State officials to persuade the company’s directors of our unique advantages.

Solutions for Action in 1977

What additional steps can be taken in 1977 toward solving the problem of unemployment? The problem is most extreme in our cities where thousands of idle workers live in the shadow of aging and abandoned industrial plants. No problem deserves higher priority on our agenda for 1977.

I urge swift passage of legislation arming the Economic Development Authority with extraordinary powers to designate urban growth zones, to promote their economic development, and to consider the actual development by the EDA of urban industrial parks in cities throughout the State.

Companion legislation now being prepared would permit the Port Authority of New York and New Jersey to issue tax-free revenue bonds to finance urban economic development projects in the cities of the Port district.

New Jersey’s unemployment problems are shared by the other Northeastern industrial states. In the hope of building strength through unified effort, I began work two years ago to develop what is now the Coalition of Northeast Governors. New Jersey played a major role in developing
the detailed action agenda adopted by CONEG two months ago.

But the centerpiece of that agenda is a proposed Regional Energy and Development Corporation. The Corporation would be a self-help mechanism for the states of the Region. It would issue taxable bonds backed by federal guarantees. It would finance projects to improve the supply of energy to the Region and provide other incentives for job-producing industry to locate here.

Unlike our own EDA, the new Corporation would not be bound by a $5 million limit on financial commitments. Legislation implementing this far-reaching proposal will be submitted to the Legislature. It deserves your prompt attention.

We should not, however, overlook other avenues of progress. During the early 1900’s the film industry grew and prospered in our State, but in the last 30 years it has languished and we lost those jobs. I established a Motion Picture and Television Commission by Executive Order. I urge you today to enact legislation to establish this Commission on a full-time basis and to provide the necessary financial resources to bring a share of this great industry back to its birthplace.

Transportation is an essential component in any effort to attract economic investment and jobs.

New Jersey began subsidizing its deficit-ridden railroads more than 15 years ago on an emergency basis. The program has grown by leaps and bounds over the years. It has been extended to bus lines. Many of the buses and railroad coaches in service in New Jersey today are owned by the State. Operating assistance costs the taxpayers some $70 million a year.

This year, for the first time, we have conducted an extensive study of the State’s role in public transportation. That review by the Department of Transportation demonstrates clearly that major reform of our mass transportation program is essential.

I propose that we create a Public Transit Agency within the DOT to centralize the regulatory functions now performed by the Commuter Operating Agency and Board of Public Utility Commissioners. The PTA should strengthen
our methods of contracting for service. We must have firmer control over how public monies are spent by the private bus lines. We must provide fiscal incentives for them to cut costs of service and to increase ridership. The PTA should be empowered to supplant private management and take over operation of bus lines where such action is warranted. There should be provision for regional transit agencies to be established by a county or groups of neighboring counties.

Legislation encompassing the recommendations of this mass transportation study is being prepared. I urge prompt action to put this vital service on a more rational and effective basis.

I have been a continuing critic of the Port Authority of New York and New Jersey for treating New Jersey like a step-child to New York City. We have rarely gotten a fair share of the attention and funding needed to solve our transportation problems.

I shall continue speaking out when the Authority’s sections warrant criticism. But I must acknowledge the beginning of increased concern by the Authority to New Jersey’s problems. In recent months, the Authority has acted to improve access to and utilization of Newark International Airport and to renovate Newark’s Penn Station. Is has also played a helpful role in the development of Liberty State Park and in the search for new industry.

These positive results are encouraging, but do not by any means redress the long years of neglect of New Jersey.

The Authority must develop plans to improve the traffic flow to and from New York City, including significant advances in mass transit as well as freer access through the current vehicular tunnels and bridges. If necessary, we should investigate new access routes required to alleviate the traffic congestion caused by backups on New Jersey approach roads.

To argue that this would be monumentally expensive is to state the obvious. But the price tag shrinks when compared to the alternative; thousands of cars, buses and trucks backed up for 45 minutes and longer ten or twelve times a week waiting to get into the tunnel or onto the bridge, wasting millions of man-hours of work time each month and
spewing uncalculated tons of exhaust emissions into the air without any benefit in return.

The suggestion that it must always be that way is intolerable.

Voter approval of the constitutional referendum permitting casino gambling in Atlantic City presents both an opportunity and a challenge for this State. Casinos and related activities can create new jobs, attract new capital to New Jersey, and spur the rejuvenation of our world-renowned tourist and convention industry, in Atlantic City and throughout our shore area.

But we must proceed with caution. It would be a disaster to create nothing more than an island of new hotels in a sea of urban decay, or a regional economy which will go bust the moment casino gambling is legalized in other states.

The implementing legislation must include restrictions on credit, on hours of operation, and on activities consistent with the family resort character of Atlantic City. It must include mandatory controls on internal casino operations and rigorous licensing standards to assure the integrity of ownership and management.

Because of the unique need for the most detailed possible legislative direction, I propose that the bill incorporate the initial set of regulations to govern casino gambling, subject to later modification by the Commission. If it takes longer that way, it will be time well spent.

In addition, we have won approval for $300,000 in federal funding for an Office of Casino Policy attached to the Governor’s Office. This operation will enable us to track more accurately the movement of organized crime figures, their associates and their money and exclude them from casino operations and related industries. We will assure the honesty and integrity of New Jersey casino gambling at all costs.

We must do more to eliminate unnecessary delay of commercial and industrial projects caused by government’s complex regulatory procedures. I will submit draft legislation creating a master application procedure for “one-stop” service from State government. This service will guarantee the applicant an answer on every permit necessary for his project within 120 days after filing the completed application.
One of New Jersey’s major competitive advantages is its abundant supply of productive inventors. I urge your early approval of the proposed Office for the Promotion of Technical Innovation to help New Jersey inventors find the capital and other resources needed to turn their ideas into job-producing realities.

In addition, I propose to create a State Science Advisory Council to provide expert advice on complex scientific and science-related questions facing many State agencies. This Council, with a small federally-funded staff, would be charged with examining issues such as the best means of controlling environmentally-induced cancers, how to attract more research and development activity to New Jersey, and ways in which rapidly changing agricultural technologies can be put to work to enhance the productivity of New Jersey farms.

The Mortgage Finance Agency will sell nearly $100 million in urban neighborhood loan program bonds this year to channel investment funds into redlined urban neighborhoods. These tax-free bonds will pay only 7.5 percent interest, saving $11,520 over the life of a 30-year, $30,000 mortgage at 9 percent. This innovative program will help restore strength and vitality to the cities of New Jersey.

The severity of the recent recession has taxed our unemployment compensation system beyond its limits. A Task Force I created has recently completed an exhaustive review of the situation. I shall submit legislation implementing many of this Task Force’s thoughtful recommendations and necessary reforms to achieve a sound, efficient unemployment insurance system.

I have been committed to revision of our Workers’ Compensation Laws to eliminate abuses, accelerate the process of granting awards, get more of the benefit dollar to seriously injured workers and to make the costs competitive with other state’s programs.

We have been able to accomplish a great deal through administrative reforms. But legislation is needed to implement the remaining necessary changes.

A healthy economy is the cornerstone of society. Unless young people can find meaningful employment, reasonably aspire to home ownership and educate their own children; unless our senior citizens can live out their lives in dignity and security, all else is of little consequence.
III. Fighting Crime

In 1973, New Jersey faced rising crime rates and a criminal justice system that was beginning to break down under the strain. Our system of dealing with juveniles failed to distinguish between those who clearly deserved punishment and those who merely needed supervision and help.

Antiquated and confusing criminal laws made prosecution of adult offenders needlessly difficult and contributed to an enormous backlog of cases. Rahway Prison had exploded, demonstrating as nothing else could that we could not safely house the criminals we sought to keep off the street. Moreover, there was no overall plan for improving the corrections system.

As a former prosecutor and judge, I came to the job of Governor with high hopes of making the fight against crime a more effective enterprise. I know each of you shared the same ambition. How have we dealt with this problem? What more must we do?

Our Department of Law and Public Safety has built a record of achievement, innovation in rooting out public corruption, fighting the illicit drug trade, breaking up anti-competitive business relationships, streamlining the State Police, and running what may very well be the best State civil law service in the country.

Because the corrections system needed a complete overhaul, I commissioned a distinguished Task Force to create the State’s first Corrections Master Plan. One of its major recommendations was that the corrections function be performed by a separate department because of the direct connection between good corrections management and the public safety. We implemented that recommendation last year. I fully expect our new Corrections Department to attain the major objectives identified by the Corrections Master Plan with the full cooperation of the Legislature and Courts.

Those objectives are: to provide maximum security confinement of individuals convicted of violent crimes and others who must be separated from the community; to develop correctional alternatives for non-violent offenders who will respond to community-based programs in cooperation with local and county officials; and to implement special juvenile programs.
The rising incidence of juvenile crime is of special concern. In December, 1973, the juvenile delinquency law was revised to distinguish between juveniles who have committed adult crimes and juveniles in need of supervision—those guilty of such uniquely juvenile offenses as truancy or incorrigibility. It fell to this Administration in its first months to implement this complex new law and the results are beginning to become evident.

Other states now follow our lead in recognizing that juveniles who have committed only typically juvenile offenses should be guided toward responsible adulthood while juveniles guilty of adult antisocial behavior should be treated more toughly, so that they will not continue to threaten society at large.

In many states, white collar crime has flourished in the Medicaid Program. The federal government last year singled out New Jersey for its outstanding efforts in policing Medicaid. We have increased civil and criminal penalties for Medicaid fraud. We increased manpower in screening and enforcement units to make it still more difficult to cheat Medicaid.

We have been equally tough in other forms of white collar crime—our professional boards have increased their scrutiny and severity of their penalties to bring a new level of discipline to the profession they govern.

For the past two years, I have had the honor of serving as Chairman of the National Advisory Committee on Criminal Justice Standards and Goals. This distinguished panel has now issued two volumes of detailed recommendations. I believe they will be well-received by the new Administration in Washington and will have a positive, long-run impact on the nation’s criminal justice system.

Solutions for Action in 1977

What more should we be doing in 1977 to come to grips with the crime problem in New Jersey?

We must modernize, clarify and toughen the criminal laws of this State, and place responsibility for shaping the criminal law squarely in the hands of the Legislature where it properly belongs.
The proposed Penal Code provides for definite, rather than indeterminate, sentences fashioned to fit the crime and the criminal, a concept which is consistent with the proposed Corrections Master Plan.

It will clear the books of archaic and ill-defined laws and prevent the acquittal of defendants because of technical conflicts in our criminal statutes.

And I propose creation of a Joint Legislative Committee on the Criminal Code to guard against future conflicts and inconsistencies in the criminal statutes.

The Committee should be required to review every bill that would amend or supplement the criminal law and advise the Legislature as to how it can be integrated with the criminal code without inconsistency or overlap.

It should monitor the courts and make annual reports to the Governor and Legislature on the adequacy and consistency of sentences, the quality and effectiveness of prosecutions and the speediness of trials. The Joint Committee would also increase the Legislature’s capacity to formulate prompt and wellreasoned responses to future court decisions which impose constructions on the criminal statutes.

Justice must be meted out more swiftly and certainly. An effective, speedy trial program requires a cooperative effort by every element of the criminal justice system and the Legislature. We are experimenting with administrative programs which streamline prosecutions involving violent offenders.

We must scale down our reliance on the criminal courts to deter every form of antisocial behavior. Effective alternative deterrents, including civil penalties and injunctions, can work as well as criminal penalties without clogging the criminal calendars.

The Legislature should relieve the criminal courts of some cases involving violations of labor law, election law and the laws on education. Tough fines and civil remedies enforceable through civil action should be substituted for existing criminal sanctions in these areas. We must confine the criminal law to the most serious and dangerous of antisocial conduct or abuses of public trust. Every proposed bill should be judged in terms of society’s overriding interest in the speedy trial of offenders.
But we must be tougher on the quiet but growing menace of white collar crime. Pending legislation would substantially increase the penalties which can be imposed on white collar criminals and corrupt public officials and I look forward to its speedy passage.

I proposed last year that we abandon the custom of protecting from publicity juveniles who engage in violent crime and terrorism. The Chief Justice has established a task force to review this issue, and to propose means to insure that a judge is fully aware of a juvenile’s past record when disposing of a case. We must develop legislation which increases our ability to deal effectively with violent juvenile crime.

We must also continue to press for the professionalization of law enforcement. At present there are five counties which do not have full-time prosecutors. It should be our common objective that by January 1978, these counties will have joined the State’s professional law enforcement network on a full-time basis.

IV. Advocacy for People

Consumers, senior citizens, the minorities, poor people, families yearning for clean air and water: whatever their specific concern, citizens in 1973 needed a state government that would help fight their fights. They wanted a government that would stand with them when the chips were down, not against them.

We were elected to provide that kind of active, involved, caring government. What is our record so far? What more should we be doing?

We have created the Department of the Public Advocate—an agency unique among the 50 states. Its broad mandate enables the Public Advocate to truly represent citizens in their dealings with business corporations, government at all levels, and organized interest groups.

The Advocate has fought for consumers in public utility and insurance rate setting processes; saving as much as $1 billion in consumer costs. The Public Advocate has fought to help individuals subject to involuntary civil commitment procedures, the developmentally disabled, tenants in enforcing the Truth in Renting Act, and the general public
in enforcing our new Sunshine Law. Since 1974, it has processed 15,000 individual citizen complaints.

There was a lot of scoffing when I first proposed the Public Advocate concept. Today, 38 other states are using our Public Advocate as a model as they design similar agencies.

When I ran for Governor, I promised a government more responsive to the needs of the elderly. I promised benefits for older tenants comparable to the senior citizen property tax exemption. Our Tax Reform Program fulfills this promise.

I promised to establish a program of part-time employment for the elderly through a State Employment Job Bank. That has been done and will be expanded in the coming year. I promised to begin distribution of surplus food to non-profit organizations serving hot food to the elderly and that has been done. The number of senior citizens served by the Division on Aging’s nutrition projects has increased three-fold from 5,000 to 15,000 over the past three year.

We have expanded our home health program for the elderly from $1.2 million in federal Title XX funds in fiscal 1974 to $3.2 million in fiscal 1977. Total expenditures on seniors’ programs under Title XX have increased from $4.3 million in fiscal 1974 to $10.7 million in fiscal 1977. In addition, the Legislature authorized and we have implemented a drug reimbursement program for the elderly so that they will no longer have to skip a meal or two to pay for medication.

Last year, I asked for legislation authorizing local school districts to use school buses to transport the elderly. The Legislature has passed such a bill and I shall sign it into law. We have expanded the senior citizen reduced fare program for railroads and subways and put 444 “kneeling” buses for the elderly and disabled into service.

In 1973, the costs of health care were soaring, yet little was being done to implement a hospital cost containment program that had been on the books for two years. Only a token amount—approximately $5 million per year—was pared from hospital budgets in a rubber stamp budget review process. The health care consumer suffered the consequences. In the first year of this Administration’s hospital cost control program, nearly $100 million was saved
and this saving was passed directly on to Blue Cross subscribers and the Medicaid Program.

The Department of Health has acted vigorously to prevent unnecessary proliferation of health care facilities. Our tough hospital cost control program has served as a model for other states seeking to contain the relentless increase in health care costs.

We have acted to help consumers deal more effectively with an impersonal and sometimes confusing marketplace. We have increased efforts to prosecute licensed individuals before appropriate licensing boards. The definition of charitable organization has been broadened to minimize fraudulent activities in fund raising. Court action has been used for the first time to shut down illegitimate charity drives which preyed on New Jerseyans' generosity.

Under a bill I signed last March, county and local consumer protection offices gained general enforcement powers. In the first 11 months of 1976, 10 county and 59 municipal consumer affairs offices saved consumers an estimated $1.1 million.

Our physical environment continues to be the source of great concern and controversy.

The term "environment" means to me more than preservation, more than cleaning up our air and water; it means that New Jersey with all its problems—its decaying cities, garbage dumps, and oil refineries—must retain its unique character as a balance of contrasting, some times conflicting interests which make it a vital and exciting place to live.

In trying to strike the proper balance on particular issues, I have made hard decisions. I have blocked an unwarranted extension of the New Jersey Turnpike through the Pine Barrens. I have fought for a more cautious and thoughtful offshore oil and gas policy by the federal government, a policy which recognizes the interests of New Jersey in preventing incomptabile onshore development.

I have sought sensible solutions to our water supply problems, and pressed for alternatives other than massive projects like the Tocks Island Dam.
In 1977, we will begin to draw water from Round Valley for the first time since that magnificent reservoir was created more than 15 years ago.

This Administration has put New Jersey in first place in new sewer construction; promoted urban park development; implemented the nation's first program to preserve farmland; initiated comprehensive solid waste legislation, planning and recycling; and developed sensible plans for preserving our costal areas.

Together, we have safeguarded our economy and environment with enactment of the new oil spill liability law. This bill will provide prompt and full compensation if a disastrous spill strikes our coast or wetlands, and furthers our efforts to find better ways to maintain a clean ocean. We have begun to deal with the sludge problem through our pilot program in Camden and we are facing up to other tough problems of ocean policy.

I have been a proud advocate of the rights of people, no matter what their race or sex, to work in jobs for which they are qualified.

Executive Order No. 14 requires affirmative action within state government to employ minorities and women at least in proportion to their population in the surrounding labor market, at all levels of responsibility.

The Legislature also passed and my administration is implementing sweeping legislation to guard against discrimination by firms holding contracts with local, county and state government.

New Jersey residents have never had access to the kind of television coverage of state news and public concerns that they deserve. We have fought through the courts and the Federal Communications Commission to get more adequate coverage of New Jersey by stations on the VHF band, all of which operate in neighboring states. Together with the Coalition for Fair Broadcasting, we have achieved a measure of success, despite an uncooperative FCC. Coverage, particularly by the Philadelphia stations, has increased markedly.

Our New Jersey Public Broadcasting Authority has partially filled the void through extensive coverage of special events and nightly newscasts on its network of our UHF stations across the state. But much more needs to be done.
Negotiations have begun with WNET (Channel 13) leading to a new, more substantial half-hour program of New Jersey news jointly financed and co-produced by WNET and Jerseyvision. This program would be telecast seven nights a week on Channel 13 and Channel 12 on the VHF band as well as on Jerseyvision’s four UHF stations. I shall include provisions for this new undertaking in my proposed budget.

This expanded news coverage will reach a much larger potential audience than Jerseyvision can reach alone. I believe this is an important step toward increased public awareness of public issues facing New Jersey. But it would be a mistake for anyone—particularly executives of the New York and Philadelphia stations—to conclude that this will solve the problem. We must continue the long battle to get adequate coverage of New Jersey on all the television stations that are required as a condition of their licenses to serve the New Jersey market.

Our new Truth-in-Renting Act is being implemented to advise all concerned of their rights and responsibilities and to achieve smoother landlord-tenant relations.

We have taken important steps toward achieving equity between public and non-public education opportunities, primarily through passage and implementation of the non-public school textbook law. We can be proud then, that during a period of great fiscal constraint this state government has been able to advocate for people and respond to their diverse needs.

Solutions for Action in 1977

In what other ways can we improve on that record?

(1) The automobile insurance market is in a state of crisis, not only in New Jersey, but across most of the nation.

Since November, 1974, economic realities have forced our Commissioner of Insurance to grant rate increases averaging 51 percent. Other metropolitan areas have granted even larger increases.

When New Jersey rejected still another round of rate increases last month, elements of the industry responded with threats to pull out of the state and other well-orchestrated efforts to wage a war of nerves against the driving public.
Growing numbers of motorists are unable to afford the coverage required by law. An estimated 200,000 New Jersey motorists are driving without any insurance. Another half million have been turned away by the open market and forced to seek coverage through our assigned risk pool, even though most of them have clean driving records. And the number of such motorists is growing.

Fortunately, New Jersey—unlike any other state—has kept a lid on assigned risk rates so the driver with a clean record pays no more for insurance through the pool than he or she would be charged on the open market.

But stop gap regulatory measures are not enough to reverse an alarming national trend.

It is imperative that we establish a state reinsurance facility to guarantee the right of every driver to coverage by the company of his choice. Rates should be established on the basis of the driving record established by the insured and other objective factors within his or her control.

Involvement in an accident or conviction of a moving violation are valid reasons for charging a driver a higher rate; the driver’s age, gender, place of residence, or changes in occupation or marital status are not.

The reinsurance plan must, of course, permit the companies to reinsurance any risks they decline to carry for any reason and provide a fair formula for spreading excess losses.

And we must consider basic changes in the no-fault law, which has yet to fulfill its promise of limiting accident litigation and related costs. Our $200 threshold is the lowest in the nation and simply makes no sense in these inflationary times. Let us raise it to a rational level so that only the more serious claims will reach the courts.

Finally, we must be fully prepared to set up our own state insurance facility as a last resort, should the insurance companies make good on their recent threats to stop writing policies and pull out of New Jersey.

Inflation continues to exact a hidden tax on all Americans, but most harshly upon our senior citizens and others who must live on fixed incomes. Nowhere is this more evident than in the sharply escalating cost of heat, light and telephone service.
The New Jersey Public Utilities Commission and our unique Public Advocate have earned national acclaim for their hard-nosed approach to applications for increases in the cost of these necessities of life. The PUC has rejected some applications outright. It has imposed a modified lifeline feature in telephone rates designed to ease the burden on the elderly and others who make relatively few calls.

There are limits, however, to what can be done by even the most innovative regulation under existing statutes.

I shall, therefore, submit for your consideration next month legislation enabling the PUC to institute a Lifeline Rate Structure for gas and electric, as well as telephone service. I urge you to act quickly and responsibly to assure that the modest utility needs of senior citizens and other needy New Jerseyans will be met at a cost within their means.

The cost of providing this needed relief should not result in higher utility rates for other consumers. I propose instead that the cost be borne by the existing tax on the gross receipts of public utility firms.

The legislation I send you will provide a cap on the yield from that tax to the municipalities in which generating stations and other utility installations are located. No municipality would suffer any loss in its present income from the gross receipts tax, but future increases in the yield from that tax would be dedicated to support Lifeline Rates and other programs to benefit senior citizens.

We need more doctors and other medical and scientific personnel to provide health care in New Jersey. This Administration's commitment to expanding the facilities of the College of Medicine and Dentistry, and legislation signed this past year to raise the ceilings on medical school loans are important steps, but much more can be done.

We need a nurse practitioner's program. We should license physician's assistants to practice. We should encourage new physicians to serve in underserviced areas by giving medical school loans in return for service in such areas. And we should remove any licensing requirements which do nothing to insure quality health care.

The Department of Health has moved aggressively to bring hospital rates under control. I urge enactment of a
pending bill to extend the rate setting program to all hospital insurance plans.

Recently the National Cancer Institute published statistics suggesting that New Jersey ranks among the highest in mortality from a variety of cancers, suggesting, even, that New Jersey is the nation’s Cancer Alley.

Last May, I created by Executive Order a Cabinet level Committee on Cancer Control and charged it with developing a comprehensive cancer control plan. Our highest priority is to find out who is contracting cancer as a result of which exposures, so we can design effective programs to eliminate exposure to cancer causing agents.

The Department of Environmental Protection is expanding its monitoring program to test the carcinogenic potential of air and water samples. My Cabinet Committee has applied for $6.6 million in federal funding to implement this and other efforts.

It is essential that we establish an Incidence Registry to develop detailed statistics on exactly who gets Cancer in New Jersey and the extent and nature of their exposure to carcinogens and other suspected cancer-causing agents. I shall ask the Legislature to authorize such a registry. New Jersey must proceed as no other state has done toward the reasonable and appropriate regulation of dangerous substances in our environment.

We should revise our public assistance law to put many idle workers now on welfare into public works jobs—not mothers of young children or those who have physical, mental or emotional handicaps which make them unemployable, but healthy, able-bodied workers who have exhausted their unemployment insurance benefits and have turned to the general assistance welfare program for assistance.

Legislation now being drafted would authorize welfare officials to determine which of these workers are employable and require them to work on state and local public works projects. The program is being carefully designed to assure that it does not take jobs away from anyone now employed.

I urge your careful consideration of this program. We should clear our general assistance rolls of those who are fully capable of working as long as there is honest, productive work available for them to do.
We must also revise the program for Aid to Families of the Working Poor. Approximately one-third of the 38,000 families receiving assistance under this plan can receive greater benefits at less overall expense to this state if this program is revised to provide for a program for aid to dependent children with unemployed fathers. I urge the Legislature to approve this program and, in the process, save the state an estimated $6 million per year in welfare payments.

Millions of New Jerseyans and visitors to our state joined in marking our nation's Bicentennial with thousands of special events across the state, culminating in the Ten Crucial Days Festival. The success of these celebrators should be a source of pride to all New Jerseyans. It was a tribute to our State Bicentennial Commission and its counterparts at municipal and county levels.

Another highlight of the Bicentennial Year was the establishment of Liberty State Park, with its spectacular view of the Statue of Liberty, Ellis Island and the New York-New Jersey harbor. More than 300,000 people have visited Liberty Park since the first 35-acre section was opened last June.

This modest beginning has attracted national interest. The 800 acres still to be developed holds tremendous potential. I believe it will become a great recreation and historic area without parallel in the Northeast.

Because of its importance to New Jersey and to the nation, I shall appoint a special commission to guide the future development of Liberty Park and assure that its potential is realized with taste and imagination. I am pleased that John T. Connor, the distinguished former U.S. Secretary of Commerce, has accepted my invitation to serve as chairman of that commission.

I shall be sending you a program to assure the future of our unique Pine Barrens and the huge underground reservoir of our water below them so essential to New Jersey's future.

This sanctuary of quiet streams, unspoiled woodlands and agriculture must be maintained as a balance to the cities and heavily developed suburbs of our state.
While awaiting a full program currently being prepared, I urge you to enact the Wild and Scenic Rivers Bill which will protect the Mullica River system from unplanned piece-meal development.

I urge your prompt consideration and passage of three bills now pending which would ease burdens and equalize opportunities for children attending nonpublic schools. The parents of these children carry a full share of the tax burden of financing our public schools. Ironically, not only do they receive no direct educational benefits from their tax dollars but, by sending their children to private schools actually lighten the load on the public system.

I urge prompt legislative action to provide that same subsidy for pupils’ lunches in the non-public schools—under the National School Lunch Program—now provided for pupils’ lunches in the public schools. We should consider providing diagnosis of physical handicaps, speech therapy and non-instructional auxiliary services to public and non-public school children on an equal basis.

I have directed the Department of the Public Advocate to develop a system for the protection and advocacy of those with developmental disabilities and we have received a federal grant to carry out this new change.

In addition, legislation pending before the Senate would guarantee civil rights and treatment standards for the mentally ill. It should be enacted promptly.

V. Restoring Integrity to State Government

When we came into office, we inherited a state government that lacked fundamental integrity. The public believed the awarding of contracts could be influenced for the price of a contribution to the right political party at the right time. State officials were not required to reveal their financial situations and were too often allowed to operate in serious conflicts of interest. The people were excluded when important state business was done by key committees, boards and commissions. Who could be proud of this kind of government?

We came into office pledged to run an open government and return integrity to the State House. What have we done to fulfill this most fundamental of all the promises we made to the people of New Jersey?
We now have a law to provide for the public financing of gubernatorial campaigns to stem the flow of private wealth into political hands, and this law is being enforced. We should extend public financing to primary campaigns. We must free the political process from the chains of wealth.

The shades of government have been raised so the public may view the internal workings of public bodies at all levels of government. Our Sunshine Law requires public notification of the time, place, and nature of business to be conducted by any governmental agency for the first time in State history. The sunshine of public scrutiny helps insure the integrity of state and local government.

This administration is conducting the state’s business professionally, not politically. The state’s revenue raising and spending practices are conducted openly for all to see.

- An Architect/Engineer Selection Board screens applicants to guarantee the award of design contracts solely on the basis of merit and cost, not political favoritism. Saving to date, $450,000.

- Professional contracts, for accounting, auditing, stenographic and similar services, are awarded by competitive bid rather than by waiver, as was common practice in the past. Saving to date, $715,000.

- We eliminated favoritism in the selection of leased office space, serving unnecessary brokers’ fees, and are experimenting with bidding of leased space.

- We saved $1.5 million in insurance costs by eliminating brokers’ services and restructuring policies on a businesslike basis.

- We award state time-deposit accounts by bid to the bank which offers the highest interest rate. Additional earnings to date, $200,000. Previously, these deposits were placed in financial institutions chosen by the Treasurer.

- We initiated “A Taxpayer’s Guide to the Budget,” providing for the first time an explanation of the State Budget in Simple English.

We have acted, not only to prevent conflicts of interest, but also to avoid any conduct that might create the appearance of a conflict. Guidelines issued by the Executive Com-
mission on Ethical Standards strictly regulate the receipt of gifts.

We have made changes to encourage citizen participation in the electoral process. The cornerstone of our program is postcard registration, an unqualified success. This program with adequate safeguards, has made it easier and more convenient for 664,352 qualified voters to register since August 1974.

This administration has taken other unparalleled steps to insure the integrity of the governmental process. I have required some 275 top officials in the Executive Branch to disclose their personal finances. This disclosure program, which I initiated shortly after taking office, quickly became the subject of litigation and its constitutionality has recently been upheld by the Appellate Division of Superior Court.

Solutions for Acting in 1977

What further steps should be taken in 1977 to insure integrity to state government?

In my 1976 annual message, I called for an end to the archaic practice or “Senatorial courtesy” allowing one Senator to blackball a nominee, without any public accounting. This practice may constitute a courtesy to individual senators, but it constitutes a profound discourtesy to the public. I ask once again that it be ended.

Persons having business with various state regulatory agencies often appear before hearing officers. These hearing officers are often personnel who work in the agency or private individuals specially appointed to hear particular cases. This system often gives the appearance of basis in favor of the agency.

I propose creation of an independent Office of Hearing Examiners to hear all contested cases from all departments, with appropriate and necessary exceptions. Such an office should develop expertise in particular areas of the law, and yet maintain an objective and independent position. There would be significant benefits to the state and its citizens in the form of greater fairness, greater uniformity in procedural rules, and greater overall proficiency of hearing examiners.
The current New Jersey Conflicts of Interest Law is burdened with inconsistent standards and vague language. It should be overhauled and extended to municipal and county governments. It should spell out firm guidelines for government officials who represent themselves or others before government agencies, the types of contracts and business dealings in which they can participate, and what types of outside activities and employment they can accept.

The Executive Commission on Ethical Standards would be restructured to supervise local as well as state employees' activities. This action should help restore public confidence in government and public officials.

We have forced financial disclosure by top state officials through Executive Order, but it is time this policy was codified in statutory form. I will submit legislation to do this, and I urge the Legislature to adopt similar disclosure requirements for its own members.

Conclusion

We are entering an election year. There are those who, whatever their motives, will belittle the record of achievement compiled by this Legislature and this Administration.

But the people will recognize in time that we have succeeded in capping the costs of government and reforming a bad tax structure; they know that we have used every tool at our disposal to create jobs; and they know that we have done far more to fight crime and to meet the needs of the ordinary citizen than prior administrations.

Perhaps most important, the people know that this Administration and this Legislature have brought new integrity and openness to State government in New Jersey. The snipers and distracters will make fun of us. Sometimes it is embarrassing to run an open government, sometimes the sunshine we have let into State government exposes our warts and blemishes along with everything else.

But the record is there for all to see. I am proud to be judged on that record, and this Legislature should be, too.

There is much work still to be done. The common intelligence is that nothing much of real significance can be accomplished in such a year, in which every seat in this Legislature and the office I hold will be at stake.
This first year of New Jersey's Third Century of Statehood seems to me to be a good year to break that precedent. I urge you to join me in that effort. The people deserve no less.

Following the Joint Session the Senate reconvened.

Mrs. Lipman offered the following resolution which was read and adopted:

Whereas, January 15, 1977, marks the 48th anniversary of the birth of the Reverend Dr. Martin Luther King, Jr.; and,

Whereas, Until his untimely death at the hands of an assassin on April 4, 1968, Doctor King was in the forefront of the continuing struggle to establish true justice, equality and brotherhood among men; and,

Whereas, To citizens of his own race Dr. King’s achievements gave new pride and hope and encouragement, and to all Americans he pointed the way to a triumph over our national legacy of racial divisions; and,

Whereas, With a courage born of his great dream of a nation redeemed from the shame and torment of racial strife, Dr. King knowingly and resolutely faced the menaces of an aroused bigotry, which eventually claimed his life at the age of 39, but can never obliterate his immortal dream; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That this House hereby pays solemn tribute to the memory of Martin Luther King, Jr., and upon the occasion of his 48th birthday urges the people of this State and all Americans to pause and reflect upon the meaning of life, the lesson of his ideals and achievements, and the dreadful warning of his death; and,

Be It Further Resolved, That this House earnestly commends to all people the assumption of a true commitment to the ideals of freedom justice, equality and brotherhood for which Dr. King labored, and for which he gave his life.

This bill as passed by the Legislature would appropriate nearly $36 million for various governmental programs. This money has been made available by revisions in expected revenues during the current fiscal year. Although this surplus revenue could be spent without imposing additional taxes, I cannot support spending money simply because it is available. The taxpayer has a right to demand that each dollar spent is absolutely needed; since I cannot agree that the $36 million which would have been spent by this bill is essential, I am forced to cut this appropriation by $16 million.

Over the past three years, the State government and the Legislature have made hard decisions which have placed New Jersey on a path toward fiscal responsibility and prudence. We have cut costs, ending a decade of average annual State budget increases of 16.8% so that costs in the last two fiscal years to support State government have been held to only a 2.4% increase. We have taken steps toward an equitable tax structure, one which lowers the burden on the homeowner, the poor and elderly and which makes New Jersey attractive once more to the development of new business and employment opportunities. This Legislature has taken the unprecedented step of restricting by law increases in spending by government at all levels.

In securing the passage of the various items in this bill, individual legislators have worked to convince their colleagues of the need for particular programs. In some cases, these programs would benefit a particular area of the State; in others a certain group or interest would gain. The
legislators who successfully pressed the interests of their constituents should be congratulated. They did their jobs well.

I also recognize that some of these requests originated from the State agencies, which have understandably sought more support for the programs which they consider important. In some cases, the length of time which has passed since this bill was originally proposed has enabled us to find other monies to substitute for items which the Legislature justifiably thought vital. Again, the Legislature deserves no criticism for the changed situation caused by the passage of time.

Yet it is my job to make sure that the progress we have made is not lost simply because we are in the unusual situation of having some surplus. It is my job to force the State departments to make do with what they have, to seek improved productivity from their workers or to defer or abandon new purchases. The task of cutting programs which would aid worthy projects, groups or individuals is not one which is likely to win friends or political favor, either within or outside State government; it is however, the job which I can and must do if we have any hope of convincing New Jersey taxpayers that their money is spent only for the essential services of government.

* * *

We have made significant progress in recent years in strengthening the Legislative Services Agency and the Office of Fiscal Affairs. Nevertheless, the restoration of the sum provided in this bill would permit the Agency and Office to escape the spending reductions which have been previously imposed on all executive branch agencies. The Agency and Office can accept the restraints of the limited revenues, and utilize presently available funds.

The bill would restore funds to the Intergovernmental Relations Commission to enable the State to continue its membership in the Education Commission of the States and the Atlantic State Marine Fisheries Commission. There have been questions raised concerning the value to the State from membership in the first organization, and participation in the second may be no longer needed as a result of recent federal legislation creating new regional fisheries councils. In both cases, it seems best to reevaluate
the merits of participation in these groups at the beginning of the next fiscal years.

During the 1975 fiscal year, the Legislature passed three new laws requiring administration by the Department of Insurance. Although some funds were previously provided which enabled the Department to complete some planning, full implementation of the new laws will require additional support. In the current year, the Department may be able to shift funds from unfilled positions to continue its phased assumption of these new responsibilities. In the budget for the new fiscal year, we will reevaluate the scope of the programs in an attempt to fund the administration of these laws at an adequate level. Since full implementation will not take place in the current year, the Department should not need the funds appropriated by this bill.

The bill provides funds for the creation of a new position in the Department of Agriculture to administer the assistance program for soil conservation districts. This program has been previously administered by existing staff, and it seems unlikely that a significant improvement in the program will result from the addition of this position.

The bill provides funding for programs in the Department of Health for lead poison controls and youth camp safety. Presently, with the aid of federal funds and the part-time use of inspectors employed in other programs, the State performs basic services in each area. Even with the funds provided in this bill, I am advised that the State’s program would only be a cosmetic effort to treat problems of wide scope and magnitude. It would not be responsible to approve this bill when much more substantial programs are needed at levels of support beyond the State’s ability to pay.

Funds would have been appropriated to the Department of Education for additional hearing examiners. If necessary, the Department may be able to reallocate existing resources for this purpose during the balance of the current year until the extent of the backlog can be reevaluated in the process of preparing the budget for the next fiscal year.

The Public School Education Act of 1975 requires that the State provide for the educational services of children eligible for day training for the mentally retarded. The assumption of the State’s responsibilities for such educat-
tion raises difficult and complicated questions concerning the nature and extent of the required programs and funding. Before we begin to spend money in this area, the State needs a comprehensive plan to ensure that our expenditures produce the best possible results for the affected children. I have directed that such a plan promptly be developed to identify the needed standards and level of funding for this important program.

Since the introduction of this bill, it has become clear that start-up costs for the Pingry Regional Day School will not be required in the current fiscal year. This item has accordingly been deleted.

The Public School Education Act provided that minimum standards of education would be set so that we could better assess the quality of education offered children throughout the State. I strongly support this concept. As with the other fiscal reforms enacted during the past year, this law is important to convince the taxpayer that he is getting full value for each dollar spent on education. Since the Department has existing funds from unfilled positions, I do not believe that there is a need for additional funds for the months remaining in the present fiscal year in order to commence this program. I have accordingly eliminated the $92,560 allocated by this bill. I intend to monitor the implementation of this program closely, and believe that the Department will be in a better position at the end of the fiscal year to assess its progress and determine the need for any additional funds.

The battle against cancer must be a high priority of government. I have created a Cabinet Committee on Cancer Control to coordinate and focus State cancer programs. This Committee has recently filed an application for $6.8 million in federal funds to support a wide variety of cancer research and control activities. The Legislature has also demonstrated justifiable concern in creating a Commission which presently is reviewing legislative proposals to establish and fund cancer programs.

The $435,903 appropriation which this bill would provide to support long-term basic research activities at the Institute of Medical Research at Camden is only a small proportion of the support needed by this excellent facility. In view of the State’s budgetary situation, it is clear that the Institute needs more stable funding to support its projects. I
have reduced the current appropriation to the $350,000 which was provided to the Institute in past years, and have directed my Cabinet Committee to work with the Institute toward obtaining a more secure source of money than general State revenues. This appropriation allows for the continuance of the program in Camden.

We can be proud of the fiscal controls which New Jersey has imposed on the costs of the Medicaid program. As a result of controls on hospital rate increases, vigorous investigation and prosecution of fraud, and other factors, I have been advised that a substantial surplus in the Medicaid account can be anticipated during the current year. Because of this surplus, funds appropriated by this bill for two Medicaid-related programs are no longer needed.

One of the cutbacks in the Medicaid program made during the 1976 fiscal year was a reduction of the fee allowed to providers of medical care services. This appropriation would permit the cost of these services to be increased to the 1975 amount. The Legislature has approved this long-deferred increase, and I concur that the increase is warranted. Since there are now surplus funds available, I am directing the Department to reallocate these funds to implement this fee adjustment, and the present appropriation is unnecessary.

As with the increase in provider fees, the Legislature has also acted prudently in increasing the amount for investigation of Medicaid fraud. In comparison with other states, New Jersey’s efforts in curtailing fraud have been highly successful. Again, however, the current surplus in the Medicaid account can be reallocated for this purpose, thus eliminating the need for the appropriation.

The Garden State School District receives funds for distribution to the various correctional institutions for inmate training programs. Funds were added in anticipation of cutbacks in federal support of such programs. However, there is currently a balance of unexpended funds for this program which can be reallocated to eliminate the necessity for this appropriation.

The Department of Community Affairs would have received an additional $100,000 for housing code enforcement. Because of unfilled positions, there is currently a surplus in this account. If additional activities are warranted, they can be financed by this surplus.
The Office of Hispanic Affairs has been measurably strengthened in the last year so that it can serve the needs of the State’s Hispanic community. The appropriation for Spanish Speaking Projects increased from $250,000 in 1976 to $400,000 in 1977, and I intend to provide additional support in the budget for the new fiscal year. These past and proposed appropriations are sufficient to eliminate any need for this supplemental funding.

The Chief Justice has requested substantial additional funding for the improvement of court operations and support. I have reduced the appropriation to $750,000, which will permit a start of these projects. Meanwhile, I hope that new efforts can be made to obtain alternative sources of funding from federal agencies for some of the projects covered by this money.

The former program of State aid to local health programs was terminated at the end of the 1975 calendar year. This appropriation of $2,332,013 would reinstitute the program at a point when continued State funding is unlikely because of limited revenues for existing programs. Furthermore, under the current State aid formula for distribution, these funds would not be distributed in a most effective manner. This State aid formula should be reviewed in the coming months. It seems unwise to expend this substantial sum at the present time under the current formula.

The appropriation of $3 million to the Jersey City Medical Center is intended to subsidize its operating deficit. I am concerned about the existing controls over the financial management of the Center. The Legislature has passed a companion bill currently before me which indicates that some voluntary improvements in operations have been made. I have been assured that other actions will be taken to impose tighter fiscal controls on the Center’s operations. While I am, with some reluctance, approving this appropriation in the interests of the Center’s patients, I am doing so only on the basis of assurances of the Center’s cooperation in reorganizing its operations. My approval should not be viewed as a precedent for future funding of deficits of the Center or other hospitals. To ensure adequate monitoring of State funds and an ongoing oversight role, I shall submit legislation providing for appointment by the Governor of two members on the Center’s governing board. The Center should take steps now to avoid the necessity for this appropriation next year.
The $450,000 appropriated for shore protection projects would be in addition to $1 million provided in the past year. While there is a backlog of current projects, it is my understanding that the time required for approvals of pending applications for the already authorized funds will eliminate any need for this money in the current year. The sum in the original budget is more than adequate for construction-ready projects. It may also be possible to secure federal funding of certain projects if additional public works monies are approved by the Congress and the President. Under such circumstances, I do not believe this appropriation is justified at the present time.

The special appropriation for a beach maintenance project to the Borough of Keansburg would set a bad precedent. If funds were available, there should be standards for a comprehensive program in this area. One municipality should not be favored when there are insufficient funds to establish the program on a more comprehensive basis.

The $4,790,952 appropriation to the county colleges may represent, in my view, an unfortunate reward to certain institutions which have not made adequate efforts to live within budget restrictions imposed on other governmentally supported agencies. This money is purportedly needed because of problems related to enrollment increases in the 1974-75 fiscal year. By approving this full sum, we would pay funds to certain colleges which have failed to adjust their programs and spending to the level of funding identified in the budget. Other institutions may have a demonstrated need for these sums because of factors outside their control. After consultation with the Chancellor of Higher Education, I have determined that this appropriation can be reduced to $2 million, which should be a sufficient level of funding for those institutions which can justify their requests. I have further directed that these funds should only be expended upon the recommendation of the Chancellor that a county college has demonstrated the existence of fiscal problems related to enrollment overruns during the 1974-75 fiscal year. It would be unfair to the other institutions which have learned to cut back in view of current fiscal restraints if I approved this entire appropriation.

The current appropriation for the Revolving Housing Development and Demonstration Grant Fund was increased
by $1.2 million over the $3 million provided in 1976, even though other activities of the Department of Community Affairs were substantially reduced. There also may be alternative funds from bond accounts or other sources for the program which would avoid the need for this additional expenditure.

Appropriation of $400,000 has again been approved to create a new aid program for depressed rural areas. The Legislature has before it a companion bill to authorize this program. I question whether the formula provided in the pending bill before the Legislature fairly treats those areas in greatest need, and will work with the Legislature to revise the formula. Meanwhile, I do not think it proper to appropriate this money until the Legislature completes action on the manner in which the money should be spent, and will reconsider this expenditure when the authorization bill, and a separate appropriation measure, reaches my desk.

The bill would have appropriated $1,050,000 to restore a program dropped in the 1976 budget to reimburse municipalities for revenues lost from the earlier repeal of municipal franchise taxes on motor buses. The municipalities have received additional support from federal and State governments through revenue sharing, and have learned to adjust to the loss of this revenue.

* * *

There is nothing wrong with a constant monitoring of State expenditures. The Legislature has done it well. I believe that my record of limiting expenditures in the past three years indicates they can be controlled. I recognize the need for constant vigilance and communication with the Legislature to achieve this purpose. I will try my best.

Respectfully,

[seal]

/s/ BRENDAN BYRNE
Governor.

Attest:
/s/ JOHN J. DEGNAN
Executive Secretary to the Governor.

On motions made and adopted, cosponsors were named to bills as follows:

Senate Nos. 1387, 718, and 705, Mr. Fay.

Senate No. 3303, Messrs. McDonough and Bedell.
Resolved, That when the Senate adjourns, it be to meet on Thursday, January 27, 1977, at 2 p.m.

Whereas, With the recent close of the 1976 Legislative Year, the Honorable William V. Musto, Senator from
District 33 (Pt. Hudson), completed his thirtieth consecutive year of service in the New Jersey Legislature; and,

Whereas, Senator Musto commenced his legislative career shortly after his return from military service in World War II, in which he distinguished himself, serving on the battlefronts of Europe and rising from the rank of private to captain; and,

Whereas, He was first elected to the General Assembly on November 5, 1946, and continued in that position, including a term as Minority Leader in 1953, until his election to this House in 1965; and,

Whereas, From 1966 until the present he has served with distinction as a member of the Senate, and enjoys the highest respect and esteem of his colleagues for the breadth and profundity of his understanding of the legislative process and for his able, active and productive contribution to the business of the Legislature in the service of his constituents and of the State at large; and,

Whereas, A native and lifelong resident of the City of Union City, Hudson County, Senator Musto has also had an active and distinguished career in the public affairs of his community, has served as a member of the Union City Board of Commissioners since 1954 and as the Mayor of Union City from 1954 to 1970 and from 1974 until the present; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That the members of this House hereby extend to Senator Musto, as he commences his fourth decade of service in the New Jersey Legislature, an expression of their esteem for his many years of consistently outstanding public service and of their best wishes for all his future endeavors; and,

Be It Further Resolved, That a duly authenticated copy of this resolution, signed by the President and attested by the Secretary, be presented to Senator Musto.

The following communication was received from the Governor:
To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 720 with my objections, for reconsideration.

This bill amends the statute governing the practice of podiatry. It deletes current restrictions against certain types of treatment on the foot and lower leg and permits the podiatrist to "treat any ailment of the human foot and those anatomical structures of the leg governing the functions of the foot including local manifestation of systemic diseases of any other part of the body." The bill also deletes restrictions against treatment of certain types of diseases, as they affect the foot, such as tuberculosis, osteomyelitis, malignancies, syphilis and diabetes; the bill deletes restrictions against treatment of certain types of injuries to the foot.

An amendment, which put the bill in its final form, would permit a podiatrist to treat "those anatomical structures of the leg governing functions of the foot." I am informed that this amendment was intended to better define the intent of the bill by clearly indicating that only structures affecting the foot could be treated by a podiatrist. However, this language could be interpreted to permit treatment of structures of the leg governing functions of the foot regardless of whether there is any ailment in the lower leg or foot and regardless of location of such anatomical structures on the leg. Thus, this language appears to broaden the effect of the bill beyond the scope intended; I am advised by the Board of Medical Examiners that this language should be deleted.

Accordingly, I herewith return Senate Bill No. 720 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, lines 18 and 19: Delete "and those anatomical structures of the leg governing the functions of the foot".

Respectfully,

BRENDAN BYRNE,
Governor.

Mr. Merlino offered the following resolution, which was read and adopted by voice vote:

Be It Resolved, That Senate No. 113, as amended, be referred to the Revenue, Finance and Appropriations Committee.

The Revenue, Finance and Appropriations Committee reported the following bill favorably without amendment:

Assembly No. 2358.
Assembly No. 2358 was taken up, read a second time, and ordered to a third reading.

The following communication was received from the Governor and filed:

STATE OF NEW JERSEY,
OFFICE OF THE GOVERNOR,
February 17, 1977.

To the Senate:

Pursuant to Article V, Section 1, Paragraph 15 of the Constitution, I am appending to Senate Bill No. 1501 (Corrected Copy) at the time of signing it, this statement of the items, or parts thereof, to which I object so that each item, or part thereof, so objected to shall either not take effect or shall be modified.

1. On page 1-2:

"11420-160. Consumer Affairs—Professional Boards

Thomas W. Birdsall, 635 17th Avenue, Belmar, New Jersey 07719, for loss and resultant consequences of erroneous charge of gross negligence, incompetency, etc., by the New Jersey State Board of Professional Engineers and Land Surveyors in June of 1974, payable from funds appropriated to the State Board of Professional Engineers and Land Surveyors, $4,400."

This item is deleted in its entirety.

2. On page 3:

"600. Department of Transportation

Borough of Netcong, c/o Borough Officials and Meyerson and Kron, Esquires, 46 Main Street, Netcong 07857, for drainage expenses resulting from flooding due to construction of Route 80, payable from funds appropriated to the Department, $35,000."

This item is deleted in its entirety.

3. On page 4:

"73100. Court Operations

County of Morris, Court House, Morristown, New Jersey 07960, c/o Robert T. Natoli, County Treasurer, for overtime expended by the Sheriff’s Office for security in the jury selection for the Squires and Chesimard Jury, $7,491."

This item is deleted in its entirety.
4. **On page 4, line 7:**
   "Total Appropriation, Claims $105,692"
   This item is reduced to $98,201.

5. **On page 4, line 14:**
   "Total Supplemental Appropriation $107,692"
   This item is reduced to $100,201.

Senate Bill No. 1501 (Corrected Copy) is a supplemental appropriations bill to authorize payment of certain claims filed against the State of New Jersey. I have decided, for the reasons below, to deny payment of the following claims.

The Birdsall claim for $4,400 involves a complaint filed by the Attorney General before the State Board of Professional Engineers and Land Surveyors against Mr. Birdsall, a licensed professional engineer. The complaint alleged gross negligence in the review and approval of a subdivision plan while acting as a township engineer. The State retained an expert witness prior to the filing of the Complaint, and this expert offered the opinion that Mr. Birdsall had been grossly negligent. During the course of the hearing, this expert changed his opinion and the proceedings were then voluntarily dismissed against the claimant. Birdsall claims that he spent $8,800 defending against the charges. The New Jersey Tort Claims Act bars this type of claim.

The claim should be rejected. On the basis of the expert’s original opinion, there was probable cause to bring the complaint and there has been no showing of malice. Many administrative agencies hold such disciplinary hearings. Imposition of the costs of an unsuccessful prosecution upon the agency could increase the pressure to find against the defendant or decrease the bringing of such actions in close cases. Where there has been no abuse of discretion in the bringing of the action, the administrative agency should not be penalized.

The Borough of Netcong claim is based on proposed costs which would be incurred by the Borough for the upgrading of storm drains along Route 46. The municipality contends that the Department of Transportation caused flooding in a certain area when constructing Interstate 80. The Department of Transportation concedes that there is flooding at the area in question and that present drainage is inadequate. The Department maintains, however, that construction of Route 80 was an insignificant contributory factor to the
present situation. The Department maintains that the problem can be properly corrected only on a larger scale, through the initiation of a more expensive project involving the State, the Borough of Netcong, Morris County, a railroad and the acquisition of certain private property rights. This claim will not resolve the problem, and is an inappropriate response to the flooding situation.

The County of Morris claim of $7,491 is for overtime expenses incurred by the Sheriff’s Office of Morris County for security in the jury selection for a trial. The trial was transferred from Middlesex to Morris County to assure the defendants the opportunity to obtain a fair and impartial trial. This is a normal procedure followed when a question exists in the county where venue is regularly set of the fairness of that proceeding. It remains my view, as I have stated in vetoing this claim in prior years, that the expense of providing security through the Sheriff’s Office in a particular county is not an appropriate expense for the Judiciary.

Respectfully,

/s/ BRENDAN BYRNE,
Governor.

Mr. Maressa offered the following resolution, which was read and adopted:

Whereas, The Senate and the General Assembly have passed Senate No. 1271 making application to the Congress of the United States to call a convention to propose an amendment to the Constitution of the United States, and

Whereas, The Attorney General, by letter opinion to the Governor dated February 18, 1977, has held that under Article V of the United States Constitution the action taken by the Legislature in passing Senate No. 1271 does not require the approval and signature of the Governor.

Be It Resolved by the Senate of the State of New Jersey:

1. The Secretary of the Senate is directed to deliver Senate No. 1271 to the Secretary of State together with a copy of this resolution.

2. The Secretary of State is directed to file Senate No. 1271 in the manner applicable to concurrent resolutions passed by the Legislature.
3. The Secretary of State is requested and directed to certify to the Secretary of the United States Senate and the Clerk of the United States House of Representatives that the New Jersey Legislature has passed 1976 Senate No. 1271 and to forward copies thereof to other state legislatures as directed by section 2 of said Senate No. 1271.

Senate No. 1635.

Senate No. 1635, as amended, was taken up, read a second time, and ordered to a third reading.

The following messages from the Governor were received and filed:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,  

To the Senate:

Pursuant to Article V, Section 1, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 3029 without my approval.

This bill would affect the procedures for filling the Assembly vacancy created by the election of Joseph A. LeFante to the United States Congress. The bill would permit the county committees of each political party to nominate candidates for any special election to fill such a vacancy without having to conduct a special primary election. It would not be fair now to vest anew and broad power in county committee members when, at the time of their election, it was not known to the public.

My approval of this bill at this time would be interpreted in the Thirty-first District as substantially aiding one faction of one political party over another. I am not prepared to do that.

Therefore, I herewith return Senate Bill No. 3029 without my approval.

Respectfully,

BRENDAN BYRNE,  
Governor.

JOHN J. DEGNAN,  
Executive Secretary to the Governor.
State of New Jersey,  
Executive Department,  

To the Senate:

Pursuant to Article V, Section 1, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 636 (OCR) with my objections, for reconsideration.

Senate Bill No. 636 (OCR) creates a State Energy Office to formulate comprehensive policies and programs for the production, distribution, consumption and conservation of energy resources. The powers of this agency would include the authority to require any energy industry doing business within the State to submit information, to prepare an emergency allocation plan of energy resources in the event of an impending serious shortage of energy, to establish an energy information system, to monitor prices charged for energy within the State and to design a program for the conservation of energy.

I have no objection to the basic provisions of this proposed legislation, and indeed the sponsor has noted that this bill was primarily drafted by my staff. The one area of disagreement has been the sponsor’s insistence that the bill take this Office from its present location within the Department of Public Utilities.

There has been much controversy over the proper location of this Office. My personal view remains that the Department of Public Utilities is the most appropriate agency for the Office’s functions. During the recent crisis, I believe that the Department of Public Utilities and the Office worked so effectively together that New Jersey’s performance in dealing with the emergency was unsurpassed in the Nation. The Department is the most directly concerned with energy matters. It has the most experience and contacts with those who produce, distribute and use energy. Its regulatory authority over rates and its investigatory powers can, if effectively employed, be strong aids to the planning and conservation programs of the Energy Office. During recent months, the Department has demonstrated that it can realize its potential as a strong forum for protection of the public interest. Also, there would be a saving of close to $100,000 from general revenues during the next fiscal year if the Office remained in the Department, where
it could be supported by the assessment against public utilities. This saving will be lost, and the burden placed on the general taxpayer, by removal of the Office from the Department.

The bill now before me places the Energy Office in the Department of Law and Public Safety, but expressly exempts the Office from any supervisory control of the Attorney General, who is the executive head of the Department. I do not believe the Office should be associated, even indirectly, with the chief law enforcement agency of the State government. In the recent crisis, some criticized what they saw as an undue emphasis on law enforcement in our emergency conservation steps. The Office should be basically a planning and policy formulation agency, and should not be placed within a department which has no positive association with energy policy other than its law enforcement capability.

Although I continue to believe that the Department of Public Utilities is the most appropriate location for this Office, I recognize that many legislators hold a contrary view. In the current energy crisis, there is a need for compromise by both the Executive and the Legislature. I feel that such a compromise, and many practical benefits as well, can be forged through my recommendation that the Legislature concur in the placement of the Office in the Executive Department for a period of five years.

The most recent energy crisis has shown again that the Governor must take a personal and continuing role in the development and implementation of our energy programs. At the commencement of my term in Office and again in the past weeks, I have not hesitated to take extraordinary steps to protect the public, or to criticize the federal policies which have led to an understandable lack of public credibility concerning the amounts and prices of our supplies provided by the giant energy companies. The State has fought for programs which would have forced these companies to disclose the information which they possess on the extent of our supplies, and to guarantee that those supplies are provided at a fair price. I continue to oppose those who would give away our natural resources to giant companies without effective controls on price or production. In the past, my direction of energy policy has brought criticism from those excluded from my confidence; these
petty bureaucratic concerns should not mask the fact that this State has had a vigorous and forceful position in the national energy debate.

Placement of the Energy Office under the Governor's direct control will confirm the central position which energy concerns must have in the coming years. The Governor has an overall view of the various programs of the respective State departments, and is able to use the powers of his Office to implement needed actions promptly and effectively. In a crisis, the Governor's extraordinary powers and responsibilities are a necessary part of an effective response to the emergency situation. Unlike the present bill, the placement of the Office within the Governor's control will give the Office effective authority but not exempt it from necessary supervision.

I have also recommended placement of the Office in the Executive Department for a period of five years. This will permit a test of this Office's performance in the present structure, and a reevaluation of our energy programs in light of future concerns.

The time for political bickering is over. This is a good bill, and I feel the compromise which I now propose to the Legislature makes the Energy Office a stronger and more effective agency.

Accordingly, I herewith return Senate Bill No. 636 (OCR) with my recommendations for reconsideration and recommend that it be amended as follows:

Page 2, Section 3, Lines 6-7: Delete "Department of Law and Public Safety" and insert "Executive Branch in the Office of the Governor".

Page 4, Section 4, Lines 1-8: Delete in its entirety. Insert "4. The State Energy Office created in the Department of Public Utilities pursuant to Executive Order is hereby created by statute and continued and established in the Executive Branch in the Office of the Governor for a period of five years from the effective date of this act."

Respectfully,

BRENDAN BYRNE,
Governor.

The following conditional veto message was received from the Governor:

STATE OF NEW JERSEY
EXECUTIVE DEPARTMENT

April 18, 1977.

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 808 with my objections, for reconsideration.

The purpose of Senate Bill No. 808 is to protect New Jersey stockholders and New Jersey corporations from precipitate and economically unwise takeovers through the use of tender offers.

The bill is designed to give investors sufficient time and information to fully assess the reasonableness and ramifications of a tender offer, and to give target companies adequate time to defend their management policies to their stockholders and to clarify questions as to their financial status. Insofar as this bill accomplishes that intent by requiring an offeror to file a full disclosure statement with the Bureau of Securities and the target company twenty days before an effective offer is made, I am persuaded that it is worthwhile. Twenty-three other states have enacted similar legislation and New Jersey must also respond to the threat of unfair takeovers.

The corporate community of this State is legitimately concerned that the recognized evils of unregulated takeovers will result in the indiscriminate raiding of its assets, will force business to seek sanctuary in other states and cause substantial loss of jobs, adding to our already severe problems of unemployment and urban blight.
However, the State's concern to protect its corporate citizens should not be so zealously exercised that it frustrates legitimate takeover efforts. Tender offer takeovers are often a desirable and efficient way for stockholders to rid themselves of ineffective or incompetent management. It is my opinion that this bill is too cumbersome in its attempt to restrict takeover and that a more limited and balanced approach would still provide the necessary protection.

Because I do not wish to delay this needed legislation, I have decided to return it to you with the recommendation that certain amendments be adopted.

Accordingly, I herewith return Assembly Bill No. 808 (OCR) for reconsideration and recommend that it be amended as follows:

*Page 1, Section 2.a., Line 5*: Delete "'associate of the offeror is:’" and insert "'associate' of a person means:’".

*Page 1, Section 2.a., Line 6-7*: Delete "'the offeror'" and insert "'such person'".

Messrs. Wallwork and Russo offered the following resolution, which was read and adopted:

A Resolution directing the Senate Energy and Environment Committee to undertake a review and investigation of the natural gas supply situation with respect to New Jersey’s natural gas utilities to determine whether or not it would be in the public interest for such utilities to add new natural gas customers.

Whereas, The natural gas crisis from which this State has only recently emerged has properly made the citizens of New Jersey, legislators and State officials aware of the importance of adequate supplies of natural gas to insure the public health, safety and welfare; and,

Whereas, During that natural gas crisis of the winter of 1976-77 it was suggested that one of the reasons for its severity, if not its cause, was the fact that the Department of Public Utilities had granted, in June, 1976, permission to add new customers to two of the largest natural gas utilities in New Jersey: Public Service Electric and Gas Company, and Elizabethtown Gas Company; and,

Whereas, Regardless of whether or not the department’s action in June, 1976, led to, or exacerbated, the natural gas crisis that afflicted the citizens and businesses of New Jersey in January and February, 1977, the fact that the Department of Public Utilities believed in June, 1976, that supplies of natural gas were sufficient to permit the addition of new customers implies, at the very least, that the State’s supply projections were faulty even for the short term and almost wholly inaccurate for the long term; and,

Whereas, Recent press releases and newspaper reports indicate that at least three of New Jersey’s natural gas utilities appear to be requesting permission from the Department of Public Utilities to add new natural gas customers, notwithstanding this State’s recent experiences and the controversy that exists nationally about the genuine
nature and extent of the natural gas supply situation; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

1. The Senate Energy and Environment Committee is directed to undertake a review and investigation of the natural gas supply situation with respect to New Jersey's natural gas utilities to determine whether or not it would be in the public interest for such utilities to add new natural gas customers, be they residential, commercial, or industrial, in New Jersey at this time.

2. The committee shall be entitled to call to its assistance and avail itself of the services of such employees of any State, county or municipal department, board, bureau, commission or agency as it may require and as may be available to it for said purpose, and to employ such stenographic and clerical assistants and incur such traveling and other miscellaneous expenses as it may deem necessary, in order to perform its duties, and as may be within the limits of funds appropriated or otherwise made available to it for said purposes. The committee shall also be entitled to request any information or assistance from any relevant agency of the Federal government, and from any person, natural or corporate, which the committee believes will be useful to it in conducting the review and investigation called for herein.

3. The committee may meet and hold hearings at such place or places as it shall designate during the sessions or recesses of the Legislature and shall report its findings and recommendations to the Legislature as soon as practicable, but in no event later than 60 days after the adoption of this resolution, accompanying the same with any legislative bills which it may desire to recommend for adoption by the Legislature.

The following conditional veto message was received from the Governor:

State of New Jersey,
Executive Department,

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 3099 (2nd OCR) with my objections for reconsideration.

This bill permits the political parties to apportion state committee membership in accordance with the rules and bylaws of their respective state committees. In order to allow for the election of state committee members under such a plan at this year’s primary, the bill includes a compressed schedule of dates for promulgation of such reapportionment plan and notification to county chairmen and municipal clerks.
The legislation is intended to allow the state Democratic committee to reapportion itself in accordance with the mandate of national Democratic party rules. The national party's rules call for apportionment of all official party bodies according to one-man, one-vote principles.

I strongly support such reapportionment, and note that New Jersey law is guided by those principles in prescribing the formation of county committees. It is only the parties' state committees that are inconsistent, a relic of prereapportionment legislatures.

For this reason, I welcome the Legislature's action in passing legislation like Senate Bill 3099. It demonstrates a commitment to making party institutions workable instruments of the popular will.

While commending the Legislature for its decision to reform this archaic structure, I must point out that the bill presented to me does contain two serious deficiencies which prevent me from approving it in its current form.

Firstly, two of the three deadlines prescribed in the bill for promulgation of rules and notification to relevant persons had already passed by the time that the Legislature completed action on the bill. The hope that a newly-apportioned state committee could be elected at this June's primary accordingly could not be realized. Therefore, I am recommending that, for a state committee that elects to reapportion itself, committee members chosen in the 1977 primary election shall serve for only one year, and that a new committee be elected in June of 1978 to serve until 1981.

Secondly, I do not believe that the Legislature should grant to state party committees an unlimited power to restructure themselves. If the Legislature wishes to allow any discretion at all to the state party committees, it should be in the form of clearly prescribed options from which a state committee may choose.

I therefore recommend that the bill be amended to provide the following options:

(1) Apportionment of a 42-member committee, as under existing law, of one man and one woman from each county. I recommend this alternative with reluctance, because it does not provide for fair representation; nevertheless, I recognize that the Republican party has not yet indicated
it would support reapportionment of its own state committee in accordance with one-man, one-vote principles of equity.

(2) Apportionment of an 80-member committee among counties according to population, except that every county would have at least one vote. Each county would elect an equal number of men and women.

(3) Apportionment of an 80-member committee according to the number of votes received by the Presidential candidate of said political party at the last preceding Presidential election. Each county would have at least one vote and would elect an equal number of men and women.

I accordingly recommend the following amendments for concurrence by the Legislature:

Page 1, Section 1, Line 12: After “party” omit remainder of line and insert “in accordance with one of the following options:

(a) one male and one female member of the State committee to be elected in each county;

(b) the State committee, composed of 80 members, to be apportioned among the several counties in accordance with population as determined at the most recent Federal decennial census; provided that each county have at least one vote; and provided further than an equal number of males and females be elected from each county, even if this require that a’’

"6. (New section) a. On or before February 1, 1978, the State Committee of each political party shall adopt bylaws prescribing the apportionment of members of said committee in accordance with section 1 of this amendatory and supplementary act. The bylaws shall be adopted by a majority of the members of the respective State Committee present and voting at a duly convened meeting of said State Committee at which a quorum of at least 50% plus one is present. The chairman of each such State Committee shall certify the adoption of its bylaws to the Secretary of State on or before February 15, 1978.

b. In the event that a State Committee shall adopt on or before said date bylaws providing for an apportionment of members different from the apportionment under which the current members were elected, the terms of office of all members of such State Committee shall terminate on June 13, 1978, notwithstanding any other provision of law, and a new State Committee shall be elected at the primary election to be held in 1978.

c. If in any subsequent year a State Committee adopts bylaws to alter the apportionment of its members, such bylaws shall become operational and effective at the next primary election at which a Governor is to be elected."

*Senate Resolution No. 3003*

A Senate Resolution to create a special committee to investigate the dislocation of certain residents of Atlantic City.
WHEREAS, The Legislature is presently considering a bill to regulate the operation of casino gambling in Atlantic City; and

WHEREAS, In anticipation thereof, plans for the reconstruction and development of large parts of Atlantic City have been initiated; and

WHEREAS, Such plans include the purchase of tracts of land upon which are constructed multiple dwellings and other residential tenant housing; and

WHEREAS, These purchases would necessarily lead to an alternate use of such housing and the consequent relocation of its tenants; and

WHEREAS, This dislocation and relocation would affect primarily the poor and minority residents of the City, and would be inconsistent with the expressed purposes and intent of the Constitutional amendment authorizing casino gambling and the implementing legislation, those purposes being the rejuvenation of the economy and the improvement of the quality of life in Atlantic City; and

WHEREAS, Because such residents represent a large part of the prospective work force in the City and, as residents, should be the beneficiaries of a revitalized Atlantic City, it is in the public interest to determine the propriety and effect of this dislocation and relocation; now, therefore

Be It Resolved by the Senate of the State of New Jersey:

1. There is created a special Senate committee to be composed of four Senators to be appointed by the President of the Senate, not more than two of whom shall be of the same political party. Vacancies in the membership of the committee shall be filled in the same manner as the original appointments were made.

2. The committee shall organize as soon as may be after the appointment of its members and shall select a chairman from among its members and a secretary, who need not be a member of the committee.

3. It shall be the duty of the committee to investigate the effect of purchases of land in Atlantic City upon which residential housing is located to determine (a) the number of residents who will be dislocated or relocated; (b) the burdens which will be placed upon those residents to be re-
located in terms of the adequacy of housing extant in the city and the effect upon the viability of neighborhood communities; (c) the effect of the dislocation or relocation on the employment opportunities of such residents; (d) what steps can be taken with respect to the enactment of enabling legislation on casino gambling to protect and insure the equitable treatment of those residents.

4. The committee shall be entitled to call to its assistance and avail itself of the services of such employees of any State, county or municipal department, board, bureau, commission or agency as it may require and as may be available to it for said purpose, and to employ such stenographic and clerical assistants and incur such traveling and other miscellaneous expenses as it may deem necessary in order to perform its duties and as may be within the limits of funds appropriated or otherwise made available to it for said purposes.

5. For the purposes of carrying out the terms of this resolution, the committee shall have all the powers granted pursuant to chapter 13 of Title 52 of the Revised Statutes.

6. The committee may meet and hold hearings at such place or places as it shall designate during the sessions or recesses of the Senate and shall report its findings and recommendations, as soon as may be, to the Senate accompanying the same with any legislative bills which it may desire to recommend for adoption.

The following communication was received from the Governor and filed:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the Senate:

Pursuant to Article V, Section 1, paragraph 14(b) of the Constitution, I herewith return Senate Bill 1219, with my objections, for reconsideration.

This bill would permit owners and employees of "private long-term health care facilities" to occupy the third floor of such facilities, notwithstanding rules and regulations governing such facilities and enforcing the 1967 Life Safety Code, as amended and supplemented. The bill defines a "private long-term health care facility" as "a nursing home, skilled nursing home or intermediate care facility ... which has a maximum 50-bed capacity and which does not accommodate Medicare or Medicaid patients". I agree with the general purposes of this bill, and find that it is desirable to permit owners and other personnel in small nursing homes to occupy the third floor of such facilities. Having responsible owners and personnel close at hand can serve to benefit the patients in such a facility. However, the Department of Health has expressed concern that such
personnel be in fact responsible, and not constitute a danger to the welfare of the patients through actions which may create hazards, for example, fire hazards, to the patients. I believe this end can be accomplished by limiting third floor occupants to owners, members of their immediate families, and licensed professionals employed at such facilities. The bill should also provide that individuals currently occupying the third floor of such a facility should be permitted to remain in occupancy until such time as the individual ceases to be employed by that facility.

Accordingly, I herewith return Senate Bill 1219 for reconsideration and recommend that it be amended as follows:

On Page 4, Line 48, Section 2: After "owners" delete “and employees” and insert “, members of their immediate families, and licensed professionals employed at such facilities”.

On Page 4, Section 2, After Line 48: Insert new Section 3 to read as follows:

"3. Notwithstanding any other provision of this Act, any individual occupant of the third floor of a private long-term health care facility at the time of the enactment of this Act, whether or not such individual is an owner, a member of his immediate family, or a licensed professional, shall be permitted by the Commissioner of the Department of Health to remain in such occupancy until such time as that individual ceases to be employed by such facility."

On Page 4, Section 3, Line 1: Delete “3.” and insert “4.”.

Respectfully,

[BRENDAN BYRNE, Governor.

Attest:

JOHN J. DEGNAN,
Acting Executive Secretary to the Governor.

Hon. Matthew Feldman
President of the Senate
State House
Trenton, N.J.

Dear Matty:

It is with sincere regret that I resign as Senator from the 14th District, but as you know, I have decided to accept a position with the Carter Administration. Certainly I will miss the Senate and all the friends I have made there. I leave, however, with the highest regard for the Administration, the Legislature, and my colleagues.
I appreciate your understanding attitude toward the termination of our long and pleasant association. I wish you and the Legislature continued success.

Best wishes.

Sincerely,

ANNE C. MARTINDELL,
State Senator.

My resignation will take effect, Tuesday, May 17, 1977.

WHEREAS, The Legislatures of the States of New Jersey and New York adopted identical bills in 1972 repealing a 1962 covenant that prevented the Port Authority of New York and New Jersey from effective participation in mass transit projects; and,

WHEREAS, The Port Authority, by reason of such enactments and to create a fund for mass transit projects did substantially increase all tolls charged on bridges and tunnels operated by them; and,
Whereas, The Supreme Court of the United States has found that repeal of the 1962 covenant is unconstitutional, thereby substantially inhibiting further Port Authority involvement in mass transit and frustrating the intent of the Legislatures of the respective states; now, therefore,

Be It Resolved, That the Port Authority of New York and New Jersey be directed by all relevant authority to reduce all tolls previously increased to their former levels, and that such reduction be put into effect forthwith; and,

Be It Further Resolved, That a study be undertaken as soon as reasonably possible to devise means of allocation of that portion of said tolls reflecting the increases already collected, for mass transit purposes in New Jersey and New York; and,

Be It Further Resolved, That a certified copy of this resolution be forwarded to the Governors of the States of New Jersey and New York; members of the Port Authority of New York and New Jersey; the Presidents of the Senate and the Speakers of the Assembly of New Jersey and New York.

The Annual Report of N. J. State Parole Board July 1, 1976—June 30, 1977 was received and filed.

The State of New Jersey Legislative Study Commission on the Hackensack Meadow Lands Final Report September 1977 was received and filed.

The following communication was received from the Governor and filed:

Pursuant to Article V, Section I, paragraph 14(b) of the Consti-
tution, I herewith return Senate Bill No. 1440 with my objections, for reconsideration.

Senate Bill No. 1440 would validate municipal land sales
which have been made without passage of a resolution and
without satisfying the advertising requirement, provided
that the sales took place five years or more before the
passage of this bill and no municipal tax or assessment
default is involved. The purpose of this bill is to remove
clouds from the marketability of these properties.

Insofar as this bill accomplishes the above-mentioned
purpose, I am persuaded that it is worthwhile. However,
the passage of a resolution and the advertising of a sale are
the major safeguards against corruption and self-dealing.
Without those safeguards a possibility for serious abuse exists.

I feel that placing a ceiling on the validated sales would limit the abuse potential. A ceiling of $1,000 would be acceptable and would resolve the problem to which the bill is addressed.

Therefore, I have decided to return it to you with the recommendation that such an amendment be adopted.

Accordingly, I herewith return Senate Bill No. 1440 for reconsideration and recommend that it be amended as follows:

Page 1, Section 1, Line 15: After the first mention of the word "act" insert "", and provided, further, that this Act shall not apply to individual sales where the sale price exceeded $1,000;"

Respectfully,
BRENDAN BYRNE,
Governor.

Attest:

JOHN J. DEGNAN,
Acting Executive Secretary to the Governor.

The following conditional veto message was received from the Governor:

**State of New Jersey,**

**Executive Department,**

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 1712 (2nd OCR), with my technical objection, for reconsideration.

Senate Bill No. 1712 (2nd OCR) expands the definition of permissible Economic Development Authority projects to include (1) acquisition of real estate to be used by employment-promoting enterprises, (2) acquisition of an equity interest (including capital stock) in any corporation which will encourage economic development, redevelopment, and
employment, and (3) activities connected with development properties within an "urban growth zone." I believe Senate Bill No. 1712 (2nd OCR) is in the best interest of the people of the State and wholeheartedly support the purpose of this bill.

However, a technical amendment is necessary to avoid the inadvertent repeal of language inserted in N. J. S. A. 34:1B-3 by P. L. 1977, c. 43, approved March 3, 1977. P. L. 1977, c. 43 amended the Economic Development Authority Act to include motion picture and television studios and facilities as permissible Economic Development Authority projects. Senate Bill No. 1712 omits the language added earlier this year by P. L. 1977, c. 43.

Accordingly, I herewith return Senate Bill No. 1712 (2nd OCR) for reconsideration and recommend that it be amended as follows:

Page 5, Section 2, Line 83: After "prises," insert "including, but not limited to motion picture and television studios and facilities".

Respectfully,

BRENDAN BYRNE,
Governor.

Mr. Merlino offered the following resolution, which was read and adopted:

Resolved, That Senate No. 1712 be given first reading for the purpose of re-enactment pursuant to the Governor’s recommendations.

Further Resolved, That Senate No. 1712, as amended pursuant to the Governor’s recommendations, be advanced to second reading by special order.

The following bill was given second reading by special order:

Senate No. 1712, as amended pursuant to the Governor’s recommendations.

Mr. Merlino offered the following resolution, which was read and adopted by the following vote:
